Summary

Computer Science Engineering student with knowledge of Python, SQL, MS Excel, Power BI, and data analysis. Experienced in working with databases and analyzing data through academic projects. Seeking an entry-level Data Analyst role to apply analytical and problem-solving skills.

Technical Skills

Programming Languages: Java, Python, JavaScript (Basic)

Data Analytics: MS Excel, Power BI, SQL

Web Technologies: HTML5, CSS, PHP

Database: MySQL, DBMS

Tools: GitHub, VS Code, Power BI

Experience

Python Programming Intern – VaultofCodes

July 2025 – August 2025

- Developed Python-based applications, including a Personal To-Do List and Expense Tracker, using object-oriented programming principles.
- Implemented file handling and JSON-based data storage for efficient data management and retrieval.
- Debugged and tested application features to improve functionality and performance.
- Strengthened programming, problem-solving, and software development skills through hands-on project work.

Projects

Jarvis AI Assistant – Python, NLP, Speech Recognition, API Integration.

- Built a voice-controlled AI assistant using Python and Speech Recognition.
- Applied NLP to understand and process user voice commands.
- Automated daily tasks like opening apps, web search, and sending messages

Online Shopping Database – HTML, CSS, JavaScript, PHP, MySQL

- Created a relational database to manage customers, products, orders, and payments. Used JOINS, aggregate functions, GROUP BY, and subqueries to analyze sales, customer orders, and best-selling products.
- Implemented user authentication, PHP-MySQL integration, and database management for secure data storage.

Achievements

- Completed Deloitte Data Analytics Job Simulation and gained practical exposure to data analysis and business problem-solving.
- Developed and tested applications using programming, debugging, and problem-solving skills.
- Data Modeling (Star Schema), Data Warehousing, Query Optimization, Business Intelligence (BI), Data Lineage, Data Governance, Orchestration.

Education

B.Tech in Computer Science and Engineering (CGPA:7.20/10)

Presidency University

Class XII (Percentage: 73.5%)

Jnana Sudha PU College

Class X (Percentage: 83.20%)

Morarji Desai High School

2023 – 2027

Bangalore, India

2022 – 2023

Bidar, India

2021 – 2022

Bhalki, India

Certifications

- NPTEL – Programming in Affective Computing, IIT Kharagpur
- Basics of Logistics, Fleet and Warehouse Management — TCS iON, Tata Consultancy Services | August 2026
- Data Analyst 101 — Microsoft | Certificate Code: 10610020
- IBM – Python for Data Science
